

"Two Case Studies in Securities Litigation: Aequitas SEC Receivership (OR) and *Federal Home Loan v. Credit Suisse* (WA)," 40th Annual Northwest Securities Institute

Panel Discussion
March 6, 2020
Seattle, WA

How, when, and why does the SEC get involved to investigate and impose a receivership, and how does related litigation interact with the receivership? What are the key take-always from the Washington Supreme Court's recent decision finding no "reliance" requirement for claims of material misrepresentations or omissions under the Securities Act of Washington?

Dan Keppler will be part of a panel discussion looking at two recent major securities cases in the Pacific Northwest, which will include panelists who directly participated in those cases, to unpack these questions and more.
