

## In the Community

Public service is a core value and a guiding principle of the firm. Foster Garvey is committed to serving and supporting the communities in which we live and work through a wide range of [pro bono](#) and community-focused activities, including direct pro bono legal advocacy, community service, charitable contributions, serving on nonprofit boards of directors, volunteerism, sponsorships and donations. We are honored to give back to our communities through these efforts and eagerly seek new opportunities and causes we are passionate about to continue to make a meaningful impact on the communities we serve.

Our attorneys and staff devote a considerable amount of their time and resources each year to pro bono legal work and community services to organizations and individuals. Below is a representative list of the community and civic service organizations in which Foster Garvey attorneys and staff are involved.
