Foster Garvey's Municipal, Health & Housing group hosted an informative webinar addressing post-issuance obligations, challenges and opportunities in the context of tax-exempt financings. With a focus on investing bond proceeds in a higher interest rate environment, identifying private business use and maintaining compliance with continuing disclosure undertakings, this session provided training in “issue spotting” for issuers and borrowers of tax-exempt bonds.

Our team shared insights on topics including arbitrage and rebate, permitted investments, private business use, continuing disclosure requirements, and covenant compliance.
