

"Hey Alexa, book me a room at..." 2017 CIO Summit by Hospitality Upgrade

Speaking Engagement
September 7, 2017
Denver, CO

Contact

Greg Duff

Many suggest AI and voice-activated devices represent the next major disruption in the travel and lodging industries. Greg Duff's timely and informative session will focus on the legal and practical challenges and opportunities these technologies present. Topics will include privacy and data security, contracting and potential liabilities associated with the use of these devices.
