With the COVID-19 pandemic substantially impacting businesses and their employment decisions, the timing couldn't be better to brush up on Labor and Employment laws and recent legislative and judicial developments.

This program will examine developments in labor law, leave laws, and wage & hour laws and will delve into issues surrounding sexual harassment, diversity and inclusion, cannabis in the workplace, and non-competes. This year's program will also offer discussions relevant to the COVID-19 crisis, including pay during a pandemic, managing employees who work from home, and workplace safety in the age of a pandemic.
