

Foster Garvey Provides Assistance to Virtual Celebration of Service to America Awards

Pro Bono
August 19, 2020
Foster Garvey Newsroom

Related Services

Communications, Telecom & Media

For the first time in its 22-year history, the Celebration of Service to America Awards is going virtual as a pre-recorded event premiering on August 22, 2020. The awards, presented by the NAB Leadership Foundation, are some of the most prestigious in the broadcasting industry, and honor local radio and television stations for their dedication to community service and going above their expected role of news and entertainment providers.

Foster Garvey's Communications, Telecom & Media group was honored to provide pro bono legal service for the virtual event, including assistance with issues related to the production and distribution of the program, advice with respect to releases and clearances for footage and materials included in the program, and advice with respect to broadcast television distribution.

Foster Garvey is a long-time supporter of the NAB Leadership Foundation, which is dedicated to developing programs and opportunities that promote change and enhance the diversity of the broadcasting industry.

To learn more about the awards and honorees, please visit the [Celebration of Service to America Awards](#) website.
