# Election and Political Law, Public Policy & Lobbying

## Navigating the intersection of law, policy and *strategy*

We assist clients on the full spectrum of issues related to political law, including federal and state election law, government ethics requirements and lobbying. Whether it's ensuring compliance with election laws, advocating for your interests or addressing challenges, our team will help simplify the process so you can stay focused on your objectives.

Bringing decades of experience in this arena and attorneys who have previously served inside government - ranging from municipal bodies to federal departments and agencies - we have firsthand knowledge of how laws and policies are developed to provide you with informed, strategic counsel.

Our clients span a diverse array, including presidential campaign committees, multinational corporations, local governments, Native American Tribes, trade associations and politically active individuals.

### Public Policy & Lobbying

We help clients initiate and strengthen their relationships with Congress and federal agencies on legislative and policy matters. By combining traditional legal skills with our extensive knowledge of the legislative process, we guide clients through creating and implementing effective, achievable legislative strategies, and, when appropriate, lobbying decision-makers to achieve our clients' objectives.

### We Are Problem Solvers

Our attorneys are practical problem-solvers who work within our clients' budgets to meet their strategic objectives. We provide clients with critical information and insight, analyze their options and recommend realistic courses of action. We take a multidisciplinary approach to a client's situation - examining the legal, business, political, investment and competitive aspects of the problem. We also tap into our extensive network of outside experts to maximize efficiency and to provide our clients with the best result possible.
